

YETI ROADIE HARD COOLERS – GOOD TO KNOW

HOW TOUGH IS THIS PORTABLE COOLER?

Each Roadie Cooler is built with Rocksolid Strength and armoured to the core to be virtually indestructible.

WILL IT ALSO KEEP MY HOT ITEMS HOT?

Yes, the same insulation and thick walls that keep the cooler cold also keep the heat.

IS IT EASY TO CLEAN?

Yes. We recommend using soap and warm water. If you need a heavy-duty cleaning, use a 6:1 solution of warm water and bleach with a sponge or mildly abrasive rag.

IS THIS COOLER DRY ICE COMPATIBLE?

Absolutely. The gasket allows for carbon dioxide gas to escape, making it dry-ice compatible. See our instructions on how to use dry ice with your Roadie® Cooler

DOES IT COME WITH ACCESSORIES?

Each Wheeled Cooler comes with one Dry Goods Basket but can accommodate two. Other accessories are sold separately. Check out the Roadie Wheeled Cooler Divider, Roadie Wheeled Cooler Cup Caddy and Roadie Wheeled Cooler Dry Goods Basket.

IS IT LEAKPROOF?

Like all YETI Cool Boxes, this is leak-resistant - it needs to release pressure in order to be dry-ice compatible so it's not 100% leakproof. If leakproof preference is critical to you, we recommend checking out our soft coolers.
