

ARE YONDER™ WATER BOTTLES LEAKPROOF & CONDENSATION RESISTANT?

The Yonder™ Cap is 100% leakproof, but the Yonder™ Water Bottle is a non-insulated bottle, so it'll still break a sweat occasionally.

HOW MUCH DO YONDER™ WATER BOTTLES WEIGH COMPARED TO RAMBLER® BOTTLES?

Yonder™ Water Bottles are about 50% lighter than our Rambler® Bottles of equivalent size. The lightweight design is the perfect companion for pursuits where packing light is essential. This reusable bottle is a great alternative to a single use plastic bottle.

CAN I USE YONDER™ WATER BOTTLES FOR HOT AND COLD DRINKS?

Yonder™ Water Bottles work best with cold water and drinks. Don't use the Yonder™ Water Bottle and Cap with hot or carbonated beverages, and don't use it as storage for food or perishables. Yonder™ Water Bottles are not recommended to be placed in the freezer.

IS MY YONDER™ WATER BOTTLE DISHWASHER SAFE?

Absolutely. We recommend lids on the top rack and gaskets in the utensils basket, but that's just us. You can also hand wash if you find yourself in the wild without the comfort of modern appliances.

WILL YONDER™ WATER BOTTLES FIT IN MY CUP HOLDER?

The Yonder™ .75L Water Bottle fits in most cup holders, but the Yonder™ 1L Water Bottle is probably too big to squeeze in there. You should check the dimensions of your favourite cup holder for best fit.

ARE YONDER™ CAPS INTERCHANGEABLE WITH OTHER YETI® DRINKWARE LID TYPES?

Nope. Yonder™ Caps are specifically designed to fit Yonder™ Products, so they're not compatible with your Rambler® Bottles or other YETI® Drinkware.

ARE YONDER™ PRODUCTS BPA FREE?

Yes. All YETI® Drinkware – including the Yonder™ Water Bottle – is BPA Free.
